

Libelium Certified Cloud Partner Program

Become in one and gain visibility in the IoT scenario

“Over 10,000
Wasmote developers
from 120 countries
worldwide need a
Cloud Platform.
Will it be yours?”

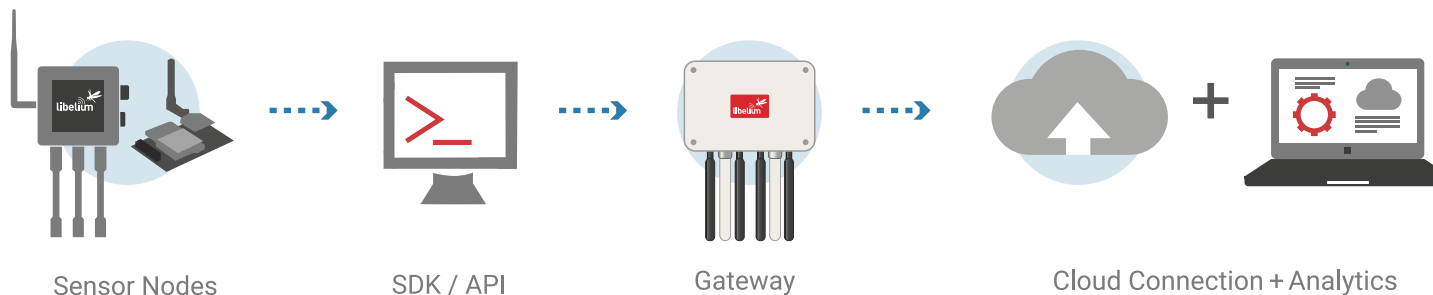

- The fragmentation of the IoT market is a reality at any point of the whole value chain.
- The market needs **interoperability for the rising demand of a horizontal perspective on IoT.**
- Worldwide IoT players map now is still a work in process.

Do you want to play your leading role?

Libelium ecosystem offers what the market demands: **transparency and interoperability.**

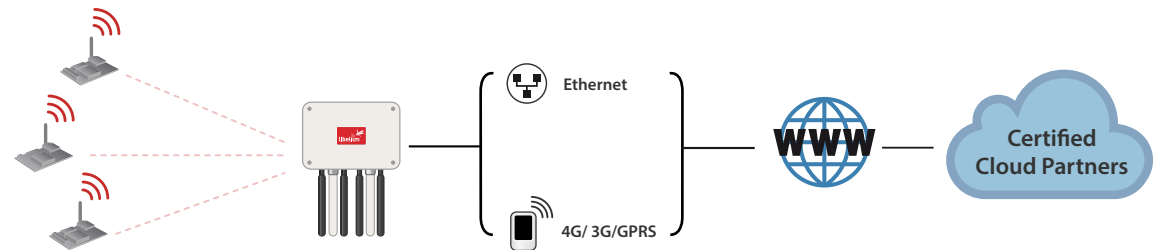

The program focuses on offering partners interoperability with Meshlium to build successful cloud based services and providing access to new business opportunities, technical support and marketing benefits.

01 Start line: Connect with Meshlium

Waspnote is a modular and horizontal wireless sensor device that can be used in any IoT scenario. It connects to the Internet through Meshlium, the Internet Gateway.

As a **Certified Cloud Partner**, with your Cloud Connector Agent in Meshlium, all future and existing **Waspnote** customers can connect automatically to your Cloud platform.

02 Why join the Libelium Cloud Partner Program? Benefits

Boost business opportunities

Waspnote integrates **110+ different sensors** on **10+ Sensor Boards** and **16 radio technologies**.

Waspnote applications: Smart Cities & Parking, Smart Agriculture, Industrial Control, Smart Water, Smart Environment, Smart Metering, Security & Emergencies, Retail, Logistics, Home Automation and eHealth.

Access to new customers

Your Cloud Connector Agent will be installed by default in all the Meshlium shipped by Libelium or its distributors.

Backward compatibility and easy upgrades. Any existing Libelium customer can upgrade their Meshlium software with just one click and access to the latest Certified Cloud Platforms.

This system allows to upgrade your Cloud Connector Agent in the future ensuring 100% compatibility.

Keep your business model and customers

The GUI included in Meshlium to configure your Cloud Connector Agent will adapt to all the fields you require. Customers will contact you directly to open an account if your platform requires.

Configuring your Cloud Connector Agent can be as simple and dynamic as you want, without adding any complexity to the setup process.

Reduce your time to market and deployment costs

By making your Cloud Platform out-of-the-box-ready with Waspnote, the deployment of a final solution reduces drastically.

Get more visibility

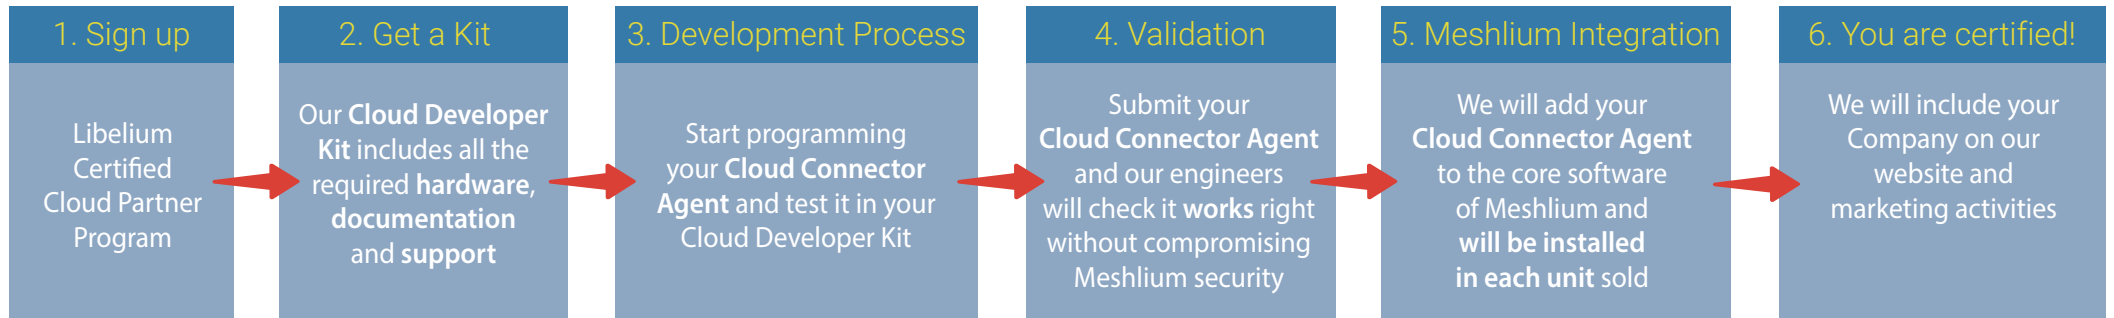

Listing in Libelium website as Certified Cloud Partner.

Using of Libelium Certified Cloud Partner logo in your website and products.

Extra marketing tools: press release, newsletter, promotion in trade shows, etc.

* See conditions based on levels (page 5).

03 Follow the Steps to become a Libelium Certified Cloud Partner

Cloud Developer Kit	
Hardware	Support & Certification
<ul style="list-style-type: none"> • 1 x Meshlium 4G 802.15.4 AP* • 2 x Waspnote 802.15.4-PRO SMA 5dBi** • 1 x Waspnote Gases Sensor Board PRO-v3 • 1 x Waspnote Events Sensor Board-v3 • 1 x Temperature, Humidity and Pressure Sensor • 1 x PIR Sensor OEM • 2 x 6600mAh rechargeable battery • 2 x 220V – USB • 3 x International power adaptor • Cloud Connector Validation Service 	<ul style="list-style-type: none"> • Access to the Meshlium Cloud Connector Development Guide (confidential document with the technical information required to program the Agent step by step). • Technical Consultancy with our engineers through our e-learning platform (online, 5-hour package). • Free and unlimited access to our community-based technical support forum
Cloud Partner Certification Price: 3.900 €	

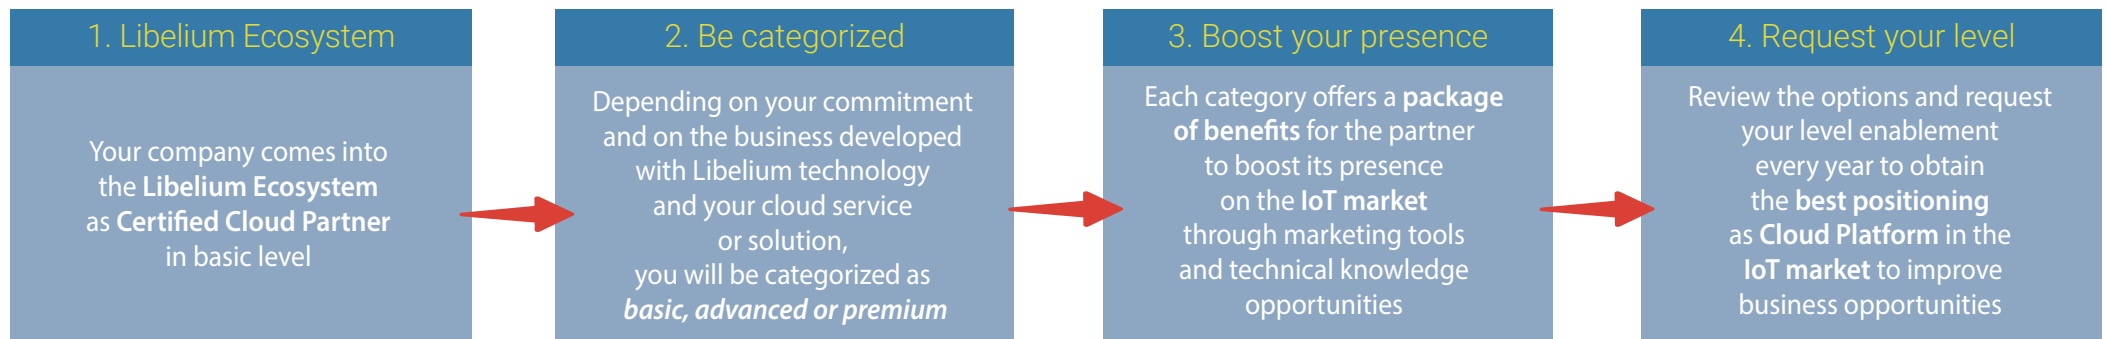

* This kit includes a Meshlium 4G with GPS functionality for geolocation. Note: 4G Australian version does not include GPS.

04 And now... What expect after certification process?

Step by step process after certification:

05 Compare levels IoT Cloud Partner Programs
